Graduate Trainee - Strategy & Data | Zanaco

Professional Summary

Computer Engineering graduate (2024) with an Artificial Intelligence elective and practical experience in data analysis, Power BI reporting, and Excel VBA automation. Applied data cleaning and analysis to mining safety and inventory challenges, and delivered weekly reports to 20+ stakeholders. Brings Python and SQL knowledge, attention to data quality, and experience supporting secure ICT operations to Zanaco's Strategy & Data graduate programme.

Technical Skills

Analysis and reporting: Power BI, Excel, SQL Server, data cleaning, dashboard development

Programming and automation: Excel VBA, Python, SQL

Business systems: INX InControl, Pronto ERP, SAP

Operations: Inventory auditing, safety reporting, user training, ICT troubleshooting

Professional Experience

Technical Support Officer

Electoral Commission of Zambia | September 2025 - Present

- Configure, test, and maintain Voter Registration Kits; troubleshoot operating system, printer, and hardware issues during field operations.
- Compile weekly registration statistics, technical issue reports, and equipment deployment plans for headquarters.
- Implement secure equipment storage and data backup procedures, and guide field officers on correct system use and data handling.
- Coordinate registration officers and equipment deployment with the supervisor to support field operations and equipment accountability.

Mining Safety Systems and Admin Intern

FQM Kansanshi Mining PLC, Solwezi | May 2025 - September 2025

- Developed an Excel VBA information system for baseline risk assessments, supporting internal assessment work and reducing reliance on external consultants.
- Built Power BI dashboards and automated summary reports to track safety metrics and incident trends; delivered weekly reports to 20+ stakeholders.
- Administered INX InControl, resolved data quality issues, and standardised datasets used for safety reporting and audit preparation.
- Trained end users on INX InControl and worked with EHS professionals to prepare information for audits, inspections, and regulatory reporting.

Professional Experience Continued

Data Analyst & Inventory Audit Officer Intern

FQM Trident Ltd, Kalumbila | June 2024 - May 2025

- Analysed inventory records to identify obsolete and non-moving stock, supporting inventory quality reviews and optimisation projects.
- Cleaned and structured datasets, then built Power BI and Excel reports to communicate inventory trends to stakeholders.
- Supported stock audits and control activities to maintain inventory data integrity in Pronto ERP.

IT Support Intern

Copperbelt University, Directorate of ICT | January 2022 - April 2022

- Supported computers, printers, projectors, and IP phones; assisted with LAN maintenance, software installation, and Microsoft Office deployment.
- Developed Excel spreadsheets for routine administrative tasks and provided end-user technical support.

Network Design and Administration Intern

Nkana Water & Sewerage Company / Wachovia Services Ltd | January 2020 - April 2020

- Installed structured cabling, RJ45 terminations, cabinets, patch panels, and switches; supported network tower setup for office connectivity.

Web Developer

Jayomitech, Remote | January 2019 - October 2019

- Contributed to UX/UI design, front-end development, and WordPress customisation.

Education

Bachelor of Computer Engineering | Copperbelt University | 2024

Major elective: Artificial Intelligence

Final-year project: IoT-Based Mining Worker Safety Helmet (2024)

Grade 12 Certificate | 2014

Distinctions in most subjects; lowest grade: Merit.

Selected Certifications and Training

- Career Essentials in Data Analysis - Microsoft and LinkedIn
- Microsoft Power BI: The Practical Guide 2024 - Udemy
- SQL Server for Data Analysis - Alison
- Learning Python and Using Python for Automation - LinkedIn
- CSCMP Supply Chain Foundations Inventory Management Professional Certificate
- ICAM Lead Investigator - Safety Wise
