Professional Summary

Software Developer and Computer Engineer with 3+ years of experience designing and building data-driven solutions, web applications, and automation tools. Proficient in full-stack development using **JavaScript, React, Node.js, Express, HTML, CSS, Python, SQL, and Excel VBA**, with a strong foundation in database design and data analytics. Experienced in developing **Power BI dashboards**, automating business processes, and creating scalable solutions that improve operational efficiency and support data-driven decision-making. Passionate about writing clean, maintainable code, learning emerging technologies, and building software that solves real-world problems.

Technical & Personal Skills

Technical Skills:

- **Programming:** Excel VBA, Python, JavaScript, SQL, HTML/CSS, Node.js, React.js
- **Data Analytics:** Microsoft Power BI, Excel, SQL Server
- **Networking:** Fiber Optic Technician, Wireless LAN Setup, Cisco CCNA
- **ERP & Business Tools:** Project Management, Pronto & SAP ERP System, Inventory Auditing, Process Improvement, INX InControl Safety System

Personal Skills:

- Excellent communication and teamwork abilities
- Innovative, creative, and adaptable
- Strong problem-solving and critical thinking skills
- Willingness to learn new technologies and work on diverse projects
- Photography, Videography, and UX/UI Design

Risk & Compliance Competencies

- Risk Identification & Mitigation
- Baseline Risk Assessment Development
- Exception Handling & Incident Response
- Compliance Monitoring & Audit Preparation
- Safety Data Governance
- Stakeholder Reporting & Coordination
- User Training & System Adoption
- Process Improvement through Data Analytics

Education

Bachelor of Computer Engineering

Copperbelt University

- Major Elective: Artificial Intelligence
- Final Year Project: Mining Worker Safety Helmet (IoT implementation) 2024

Certifications & Licenses

- **ICAM Lead Investigator** – Safety Wise.
- **CSCMP Supply Chain Foundations Inventory Management Professional Certificate**
- **Inventory and Quality Management** – Alison
- **Foundations of Working Capital Management** – PMI, NASBA & LinkedIn

- **Lean Inventory Management** – LinkedIn
- **Microsoft Power BI: The Practical Guide 2024** – Udemy
- **SQL Server for Data Analysis** – Alison
- **Learning Python 2021 & Using Python for Automation** – LinkedIn
- **Career Essentials in Data Analysis** – Microsoft and LinkedIn
- **Excel Supply Chain Analysis** – LinkedIn
- **Solving Inventory Problems & Data Visualization** – LinkedIn
- **CISCO Networking (CCNA 1 to 3)**
- **Fiber Optic Certified Technician** – FOA and Fiberlink, SA
- **Driver's License, Manual Class B (Current)**

Professional Experience

ELECTORAL COMMISSION OF ZAMBIA,

Technical Support Officer, ICT Department

September 2025 – Present

- Assembled, configured, and tested Voter Registration Kits (VRKs) to ensure full functionality before deployment.
- Maintained and ensured optimal functionality of Voter Registration Kits (VRKs) and all associated hardware components.
- Diagnosed, troubleshooted, and resolved computer operating system and printer issues to minimize downtime and maintain workflow efficiency.
- Implemented and monitored secure storage procedures for VRKs and backup data, ensuring compliance with Commission security standards
- Provided technical assistance and on-site support to Assistant Voter Registration Officers (ARO-F) in the field, enhancing operational reliability.
- Prepared and submitted weekly reports to ECZ Headquarters detailing voter registration statistics, technical issues, and equipment deployment plans.
- Collaborated with the ARO Supervisor in creating and refining deployment plans, ensuring efficient distribution and utilization of registration equipment and teams.
- Performed exception handling and incident resolution for Voter Registration Kits during field operations.
- Supervised and coordinated Assistant Registration Officers (ARO-F) during deployments, ensuring procedural compliance and equipment accountability.
- Facilitated on-site user guidance and technical instruction to field officers to ensure correct system usage and data integrity.

FQM KANSANSHI MINING PLC, Northwestern, Solwezi

Mining Safety Systems & Admin, Safety Department (internship).

May 2025 – September 2025

- Mining Safety System Administration (INX InControl)
- Managed, maintained and enhanced safety management system (INX InControl) with a focus on database integrity and digital documentation.
- Developed a Baseline Risk assessment information system using Excel VBA, helping the mine reduce expenses on Consultancy fees.
- Delivered weekly safety reports to 20+ stakeholders to guide leadership decisions on incident trends and compliance gaps.
- Developed and automated Power BI dashboards and summary reports to visualize key safety metrics and KPIs.
- Collaborated with EHS professionals to prepare comprehensive data for audits, inspections, and regulatory reporting.
- Identified and resolved data quality issues, standardizing datasets for improved reporting accuracy.
- Managed end-user needs by coordinating and conducting system interaction trainings to enhance user proficiency and adoption.

- Taught and guided end-users on proper utilization of the INX system to improve data quality and reporting accuracy.

FQM TRIDENT LTD, Northwestern, Kalumbila

Data Analyst & Inventory Audit Officer, Commercial Department (Internship)

June 2024 – May 2025

- Contributed to inventory optimization projects by identifying obsolete items, non-movers, and indent items, thereby enforcing inventory quality standards.
- Assisted in planning and coordinating stock audits and control activities to maintain data integrity within the Pronto ERP system.
- Collected, cleaned, and analyzed large datasets to identify trends, improving efficiency and supporting strategic decision-making.
- Created intuitive dashboards and reports using Power BI, Excel, and PowerPoint for stakeholder presentations.

COPPERBELT UNIVERSITY, Copperbelt, Kitwe

IT Support, Directorate of ICT (Internship)

January 2022 – April 2022

- Supported the maintenance of the LAN, installed property management software, and deployed Microsoft Office tools.
- Provided comprehensive IT support to end-users, ensuring optimal functioning of computers, printers, projectors, and IP phones.
- Assisted in maintaining PCs and developing Excel-based spreadsheets for routine tasks.

NKANA WATER & SEWERAGE COMPANY / WACHOVIA SERVICES LIMITED, Kitwe

Network Design and Administration (Internship)

January 2020 – April 2020

- Executed organized cabling and RJ45 terminations for reliable network connectivity.
- Installed cabinets, patch panels, and switches, and set up a network tower to ensure dependable connections with the main office.

JAYOMITECH, Remote Web

Developer

January 2019 – October 2019

- Worked on UX/UI design, front-end development, and WordPress customization.

Good day

LETTER OF RECOMMENDATION

I am pleased to recommend Alinjavwa Sichela, who successfully completed two internships at Trident Commercial between June 2024 and May 2025.

During his time with us, Alinjavwa consistently demonstrated strong technical skills in data analytics and quickly developed a solid understanding of our business operations. He made valuable contributions to a variety of projects, often exceeding expectations in both the quality and timeliness of his work.

Alinjavwa's capabilities include developing insightful Power BI dashboards, writing complex SQL queries to generate datasets aligned with business requirements, and performing critical data analysis to support decision-making. In addition to his technical contributions, he worked closely with our inventory team, where he showed a strong work ethic, a positive attitude, and excellent collaboration skills.

Alinjavwa is a motivated and capable individual with a promising future. I am confident he will be a valuable asset to any team he joins.

Sincerely,
Gretchen Retief

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

CCNAv7: Switching, Routing, and Wireless Essentials

The student has successfully achieved student level credential for completing CCNAv7: Switching, Routing, and Wireless Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.
